## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on June 18, 2008 has been entered.

### ***Response to Arguments***

2. Applicant's arguments, see pages 6-7, filed on June 18, 2008, with respect to claims 48-65 have been fully considered and are persuasive. The rejection of claims 48-65 has been withdrawn.

### ***Allowable Subject Matter***

3. Claims 48-65 are allowed.

4. The following is an examiner's statement of reasons for allowance: claims 48-65 are allowable over the prior art of record because the Examiner found neither prior art cited in its entirety, nor based on the prior art, found any motivation to combine any of the said prior art which teaches a method and apparatus for color balancing an image output device having an image output engine comprising the steps of and means for:

- receiving electronic document data defining an image comprising a centralized image portion, including a plurality of color components and having colorization highly sensitive to variations to relative intensities of component values, a plurality of selectable color regions extending radically from the centralized image portion, wherein each color region corresponds to a bias color associated with the centralized image portion, and a plurality of selectable bias values associated with varying intensities associated with each color region, wherein bias values are reflected as being graduated relative to an associated color region and a radial distance from the centralized image portion;

- visually comparing the color image with a reference; and  
- adjusting image output engine colorization parameters based on an adjustment parameter in accordance with at least one selected color region and selected associated bias value.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Madeleine AV Nguyen whose telephone number is 571 272-7466. The examiner can normally be reached on Monday-Friday 9:00am-5:30pm.
